Cash-Wa Distributing School Customers:

Regarding the "Buy American" provision by the U.S.D.A. for schools. Cash-Wa makes all efforts to source domestically grown produce for all of our customers. However based upon availability, which is affected by the time of year and also weather conditions, we are sometimes purchasing imported products to ensure a supply for our customers. Examples of this may include kiwi fruit, grapes, pineapple, watermelons, bananas, cucumbers, broccoli, etc.

In order to provide product to customers these items sometimes require sourcing through imports.

Sincerely,

A handwritten signature in blue ink that reads "Steve Munch R.D." with a stylized flourish at the end.

Steve Munch, R.D.
