RE: Buy American Act – NSLP and SBP

Dear Valued Customer:

The Buy American provision in the National School Lunch Program (NSLP) and School Breakfast Program (SBP) regulations [7 Code of Federal Regulations (CFR) Part 210.21(d) and 220.16(d)], is a procurement standard focused on domestic products. The Buy American provision instructs School Food Authorities (SFAs) to purchase, to the maximum extent practicable, domestic commodities or products for use in meals served under the NSLP and SBP. As outlined in the provision, a domestic commodity or product is one that is produced and processed in the United States substantially using agricultural commodities that are produced in the United States. USDA has interpreted “substantial” to mean the final processed product contains over 51 percent of agricultural commodities that were grown domestically.

The SFA owns the buying responsibility to purchase, to the maximum extent, domestic commodities for the NSLP and SBP. Exceptions to the Buy American provision are available and allow for the purchase of products not meeting the “domestic” standard in certain circumstances. Please review USDA Memo Sp 38-2017 to learn more.

As a courtesy, Conagra Brands has published a list of our branded, domestic food service items eligible for purchase based on the provisions described above.

If you have any questions regarding the Buy American Act or our list of products, please reach out to [specsand.inquiries@conagrabrands.com](mailto:specsand.inquiries@conagrabrands.com).

Sincerely,

A handwritten signature in black ink that reads "Sue E. Holbert".
