HOMESTYLE

Our homestyle (heat pressed) tortillas begin with our homemade recipes. Whether based on custom requests or our own formulas, minor ingredients are batched onsite and mixed with flour from silos that are filled with flour milled to our specifications. Once mixed, tortillas are heatpressed by our state-of-the-art tortilla presses, baked to perfection and packaged for shipping.

Fresca's Homestyle tortillas:

- Soft, pliable and resist tearing.
- FDA School approved 100% whole grain, preservative-free and Project Verified Non-GMO.

HANDSTRETCHED

Fresca remains dedicated to the art of baking authentic hand-stretched tortillas. Using our unique and proprietary recipe, tortillas are individually handstretched by our experienced and highly-skilled personnel before being baked and frozen to maintain freshness for our institutional customers.

Fresca's authentic handstretched tortillas:

- Thin and flexible; do not blister excessively when fried.
- Authentic floured surface that never sticks.
- Performs exceptionally well for fried products, such as salad bowls, burritos, taquitos, empanadas and many more.
